Lead Hunters

ليد هانترز

An AI platform that **finds, verifies and delivers** business clients and partners from public sources. Write who you need in Arabic, English or French; Lead Hunters searches around the clock, checks every contact, and hands you ready-to-call leads with a suggested offer for each one.

THE PROBLEM

- 22 Arab markets, each with its own regulators, registers and directories.
- Sources in three languages; most tools read only one.
- Bought lists are stale, duplicated and unverified — sales teams waste days.

THE SOLUTION

- A chat that turns one sentence into a full search plan (Claude AI).
- A 24/7 engine that reads registers, news, directories, maps and company sites.
- Every phone and e-mail checked and kept with its source. Nothing is guessed.

HOW IT WORKS

01 Ask
Countries, sectors and how many, in one sentence.

02 Find
Registers, news, directories, maps, public profiles.

03 Verify
Reads each company's own site for phone, e-mail, WhatsApp.

04 Score
Quality 0–100; duplicates and doubtful records set aside.

05 Deliver
Dashboard, WhatsApp, Excel and a PDF report.

WHAT YOU GET

Live dashboard
Start, pause and watch searches; filter leads by country, sector and score.

WhatsApp alerts
Each new lead as a card on your phone, with tap-to-call.

Excel / CSV export
Clean lists for your CRM or sales team, grouped by country and source.

Client PDF report
Ordered by score, with what you can offer each lead. Arabic or English.
